

Don't let your dreams go up in smoke...
Practice fire safety

FIREBRAND
GROUP OF COMPANIES

A Company for Life

We are a unique and fully comprehensive **Fire, Water & Air** group of companies offering a wide range of products and services catering for the **Residential, Commercial and Industrial** sectors in Africa. Our team of professionals take pride in their quality of work, as it is not only **passion that drives us** but the knowledge in that we are saving lives and assets by educating, training and protecting our clients and their businesses.

We endeavour to strive for customer satisfaction by working systematically and effectively on all related projects in order to accomplish milestones and to achieve a **quality outcome** that is within budget. This creates **peace of mind** for our clients and also doesn't impede on the overall operations of the group.

We adhere to **strict codes and compliance** as outlined in the National and International standards and guidelines and possess a strong network of partners who have joined forces with us to make the **FIREBRAND** vision a reality.

HISTORY

The **FIREBRAND GROUP** began its journey in 2014 with the servicing and maintaining of fire equipment and fire systems within the built environment. Through dedicated and quality service, we quickly became a force to be reckoned with in the fire protection industry, and with the confidence and experience gained, we found ourselves looking to the future.

Our exposure to the industry at large and affiliation with brilliant professionals has opened the door to many other possibilities for our company to take on.

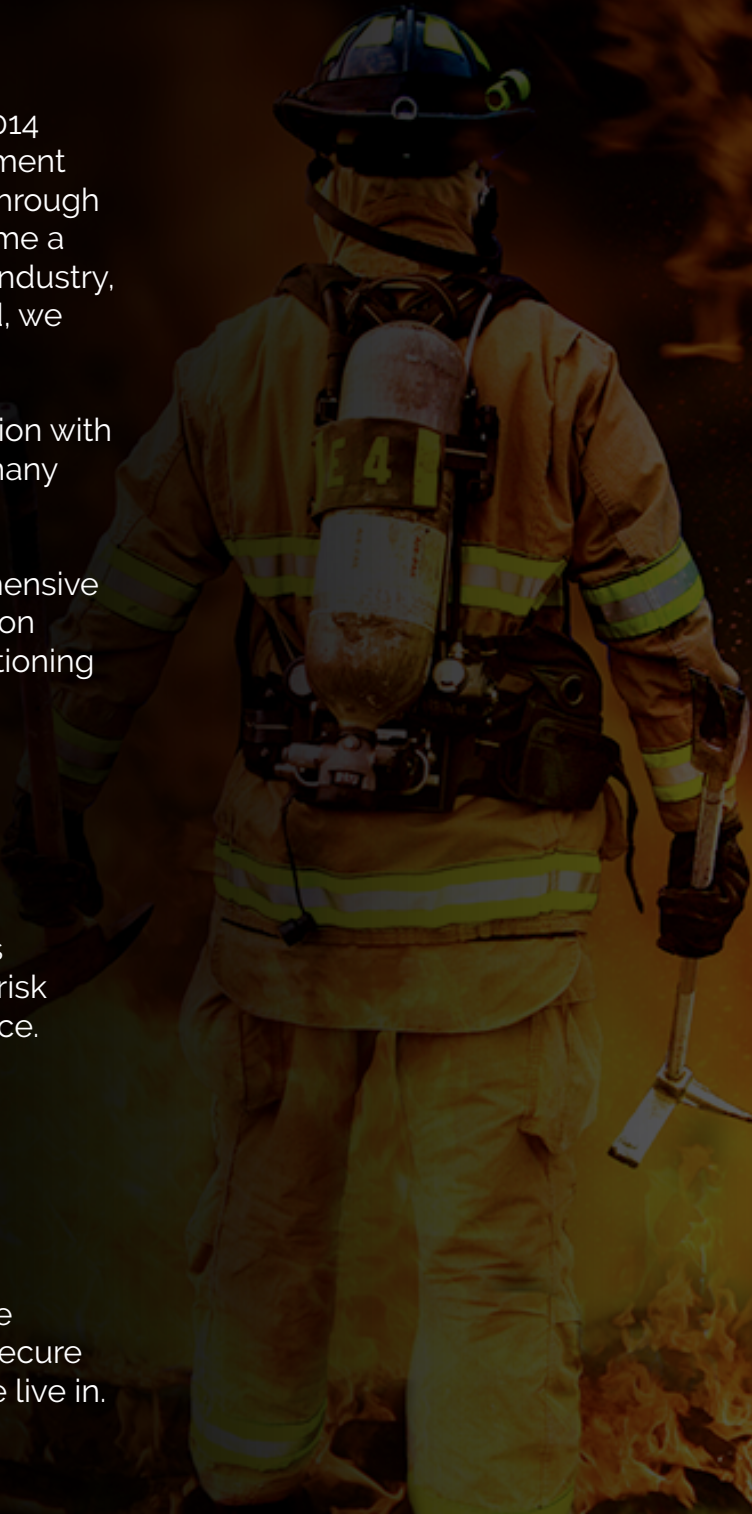

We are now able to offer a unique and comprehensive service, incorporating all aspects of fire protection systems, security systems, ventilation, air conditioning and so much more!

MISSION STATEMENT

To provide quality, innovative and safe solutions for businesses in order to eliminate all forms of risk associated both within and without the workplace.

VISION

To become a market leader in the fields of Fire Protection, Security, Air-conditioning and Smoke Control. To provide solutions that are safe and secure for personnel, property and the environment we live in.

OVERVIEW

Annual compliance along with the **maintenance** of fully functioning fire equipment and fire systems is essential with regards to building regulations and safety and insurance requirements.

Under the supervision of **experienced project managers** and with our **SABS Approved Mobile Workshop** and service vehicles on hand, our team of **SAQCC technicians and contractors** are readily available to install, repair, overhaul and certify fire equipment such as fire sprinklers, valves, tanks, pumps, smoke detectors, fire hose reels, fire hydrants, fire extinguishers and specialised fire protection parts.

We also design and install **high quality Security Systems** catered for individual monitoring and access control needs.

Our services range from **Risk Assessment Surveys** to the Design, Supply and Installation of a wide range of **Fire Safety Systems and Security Equipment**. We also carry out on and off **site training** to ensure you and your staff know and understand the operation of the equipment and associated risks thereof.

Our other key considerations to risk includes the **health and safety** of personnel in the workplace as well as what impact a disaster will invariably have on the environment. We aim to eliminate all forms of risk associated with people and the environment they are working in.

COMPANY DETAILS

Company Name:	Fire Brand Solutions (Pty) Ltd
Trading As:	Firebrand
Company Reg No:	2014/136014/07
VAT Registration No:	4280266679
